

24th March, 2021

Dear Parent/Guardian,

We have been delighted to welcome your children back to school this week for face-to-face teaching. They have responded remarkably well and slowly but surely will begin to build confidence regarding how they will be assessed in all of their subjects. The detail of this will be shared with pupils and parents when we return after Easter.

We are due to finish for our Easter holidays on Friday 26th March however the mathematics department would like to run an Easter school for all pupils doing GCSE on Monday 29th March. Whilst this is not a compulsory school day and there will be no school transport, we would very much appreciate if you could make sure your child attends on this day. It is our intention that they have the opportunity to revise topics worked on during lockdown and also do a second non-calculator assessment whilst content is fresh in their head. The day will begin at 9am and finish at 2pm. The pupils will not be required to wear their uniform and can either bring a packed lunch or go to the shop if they wish to.

As you will see in the plan, the pupils will have the opportunity to spend quality time with their teacher to revise; complete an assessment and for several classes begin work which will be of great benefit to them when they return after the holiday.

Time	Details of work planned
9am – 10.30am	All classes with teacher. Revision - Non-Calculator
10.30am – 10.45am	Break
10.45am – 12 noon	12X1 12X2 Complete 2 nd Non-Calculator Assessment 12X3 12X4 12X5 Remain in class - Revision
12 noon – 12.45pm	Lunch
12.45pm - 2pm	12X4 Complete 2 nd Non-Calculator Assessment 12X5 12X1 12X2 Revision for Calculator work after Easter 12X3

As a school, we fully appreciate what our pupils have been through during the past year and it is our intention to support and enable them to achieve their full potential. Parents, teachers and pupils must all now must work together to get through this process and do the very best for our children.

Thank you in advance for your support in this matter,
Kind regards,

Rita Mullan
Vice Principal
