

29th June, 2026

Dear Parent/Guardian,

A copy of your child's summative report has been uploaded onto the SIMs App. This report outlines the progress your child has made in each of their learning areas since September 2025. The subject teachers have highlighted pupil strengths but also areas for development. Please take time to read this report with your child and discuss with them the need to work to their full potential throughout the school year.

Many subjects have used grades to report progress whilst English and drama have chosen to report using a level. This report also includes the KS3 levels of progression for '*Using Mathematics*'; '*Using Communication*' and '*ICT*', the descriptors for which can be found by clicking on the link at the bottom of this letter.

Your child has now completed key stage 3. In September, they will embark on a new academic journey and begin key stage 4, working towards their GCSEs. For many pupils it is an opportunity to focus on the subjects that they have chosen and lay firm foundations for their future. We hope that all pupils will embrace year 11 with optimism and energy to ensure they achieve their full potential in all subjects.

Year 11 will return to school for an **Induction morning on Friday 28th August at 9.30am**. Parents/guardians are invited to attend with their child on this occasion. The morning will provide you with the opportunity to meet with your child's team principal, find out about assessments which will take place over the next two years and ask any questions which you may have pertaining to your child's new courses. I would like to take this opportunity to wish you and your child a restful and enjoyable summer break.

Thank you for your support throughout the year,

Kind Regards,

Chris Wilson

Mr C Wilson
Senior Teacher for Assessment & Reporting
